

UNIQUE FABRICATION SOLUTION PROVIDER

Director

It gives us great pleasure to introduce Acmiron to you as a young and vibrant company, which stands committed to add value to all its stakeholders. Acmiron is dedicated to quality and customer orientation with a global vision and reach.

We take pride in the fact that since Acmiron's inception in 2011, we have delivered over 100 orders to an overwhelming reception by our esteemed clients, thus winning us repeat businesses and multiple orders. This is a testament of our ability to provide the highest level of client satisfaction. We have created a brand image of a reliable company that provides creative and unique design solutions to meet customer's needs.

Acmiron's unique business model drives the company's growth and helps us achieve commercial success. We look forward to grow consistently by increasing our market share. We intend to achieve this through building new partnerships with reputed multinationals, which are looking for solutions to consolidate their business presence and remain commercially viable in the changing local fabrication business landscape. Our business motto of "progress through hard work and integrity in intent" makes us the preferred partner.

Acmiron is constantly looking for new opportunities to prove its expertise in fabrication. Our professional and effective team is equipped to meet all challenges in this sector.

We have set high benchmarks to define our success and draw satisfaction only when we meet expectations of our esteemed customers. I'm confident that we will grow from strength to strength in our endeavour to make the company one that delivers value and satisfaction to our growing clientele base.

We have a clear vision about building our strengths and creating milestones while holding on to our business ethos.

For Acmiron, working together means working with you and working for you.

**Best regards,
Mr. Viral V. Patel
Director, Acmiron**

Management Team

Mr. Viral V. Patel is the founder director of Acmiron. He is a Mechatronics graduate, with almost a decade of industry experience in the field of project design, detail engineering, execution and management. He was appointed at J&H Projects Pvt. Limited in the year 2015 to 2017.

Mr. Patel is an expert in fabrication product design, encompassing its entire lifecycle from planning, implementation and execution of special projects. He has a strong focus on technology, innovation, process reengineering and expansion of distribution and scale. Responsible for diverse fabrication works of Acmiron across Gujarat, he has been instrumental in taking the company to its

current heights. A firm believer in innovation and technology, the founder director has proved his acumen in introducing state-of-the-art machinery in plants and enhancing quality and productivity.

A proven leader, Mr. Patel was successful in fostering effective team dynamics. Gifted with excellent critical thinking ability and decision-making skills, the director has succeeded in making effective decisions for the company's growth. He is successful in implementing marketing strategies for his company's growth.

Mr. Patel is a self-motivated professional and is confident that he will realize his vision to take Acmiron to the next level.
